No time for Cochrane Reviews? Think again.
Cochrane Clinical Answers

• Provides clinicians with a condensed non-statistical overview of the most clinically relevant results of a Cochrane Review

• Focuses on the needs of clinicians in order to aid the decision-making process

• Makes the information a clinician will be most interested in more accessible

• Increases the usage of Cochrane Reviews to inform healthcare decisions

KEY FEATURES

• Question and Answer format
• Outcome-focused presentation of impact of interventions on patient
• GRADE Summary of findings statements of quality of evidence
• Link to full Cochrane Review on which Answer is based
• Narrative statement of number of patients and studies contributing data on each outcome
• Links to forest plots for each outcome

Cochrane Clinical Answers: HOMEPAGE

Welcome to Cochrane Clinical Answers

New Clinical Answers

In patients receiving methotrexate for rheumatoid arthritis, do folic acid and folinic acid reduce side effects?
Is there randomized controlled trial evidence to support the use of mirtazapine in people with depression?
Can corticosteroids help relieve cancer-related pain?
How do adjunctive corticosteroids affect outcomes of Pneumocystis jiroveci pneumonia in patients with HIV?
In women with non-metastatic breast cancer, what are the effects of cognitive behavioral therapy?

Updated Clinical Answers

In people with early stage Hodgkin lymphoma, how does chemotherapy alone compare with chemotherapy plus radiotherapy?
What are the benefits and harms of naloxone in opiate-exposed newborn infants?
In people with rheumatoid arthritis and fatigue, what are the benefits and harms of psychosocial interventions?
In people with rheumatoid arthritis and fatigue, what are the benefits and harms of physical interventions?
In people with rheumatoid arthritis and fatigue, what are the benefits and harms of diet interventions?

Sign up for RSS feeds to see new and updated answers in your subject areas.

Updated in line with Cochrane Reviews to reflect the latest evidence and provide a clinical assessment of the evidence.

New questions with full outcome data are added weekly and highlighted here.
How to search the website

**Option 1:** Access your clinical specialty via the Browse list

A full list of all available CCAs for the subject is displayed, with new and updated Answers:

**Browse Clinical Answers**
- Blood disorders
- Cancer
- Child health
- Complementary & alternative medicine
- Consumer & communication strategies
- Dentistry & oral health
- Developmental
- Ear, nose & throat

In people with advanced non-small cell lung cancer, is there randomized controlled trial evidence to support the use of cisplatin instead of carboplatin in combination with third-generation drugs?

In women with metastatic breast cancer, how does high dose chemotherapy and autologous bone marrow or stem cell transplantation compare with conventional chemotherapy at improving outcomes?

Option 2: Perform a keyword search:

If you search for a term for which we find no results, you will get the following page:

Alternatively, for wider content coverage, you can search The Cochrane Library.

Search tips:
- How to search for:
  - Single term
  - Multiple words
  - Phrases
  - Wildcards (or truncations)
  - Spelling variants
- Will find:
  - the specific term
  - diabetes AND melitus in articles or selected fields
  - exact phrase diabetes melitus
  - terms beginning with transplant, e.g. transplanting, transplantation, transplantable
  - terms ending with glycemia, e.g. hyperglycemia, hypoglycemia
  - either leukemia or leukaemia
  - either woman or women

Boolean operators:
- AND
- OR
- NOT
  - both terms in the article or selected field
  - at least one of the terms in the article or selected field
  - the first term must appear but not the second in the article or selected field

Option to go to the Cochrane Library to search for the answer to your question.

Results can be sorted by relevance or date.
Subject Coverage

Cochrane Clinical Answers features more than 800 Clinical Answers across 30 subject specialties, with 1000 to be published by the end of 2015:
