Ismail	Gögenur	Kirurgisk afdeling	Nykøbing Falster Sygehus	Combined Endoscopic and Laparoscopic Surgery (CELS) for early colon cancer in high risk patients	630.000
Jeannet	Lauenborg	Gynecology, obstetrics and pediatric	Nykøbing Falster Sygehus	Longterm follow-up of women with a history of gestational diabetes mellitus: Morbidity, mortality, and quality of life	565.000
Peter	Clemmensen	Department of Internal Medicine	Nykøbing Falster Sygehus	Prevalence of right bundle branch block and occurrence of hereditary type conduction defects in a normal asymptomatic population - A LOFUS (Lolland-Falster Health Study) collaborative study	189.000
Kristoffer Borbjerg	Hare	Department of Orthopedics	Næstved, Slagelse og Ringsted sygehuse	A systematic review of non-union, symptomatic mal-union and functional outcome after humeral shaft fractures	152.800
Ditte	Høgsgaard	Medicin 2	Næstved, Slagelse og Ringsted sygehuse	Samskabelse af brugerinvolverende tværsektorielle samarbejdsmodeller Aktionsforskningsprojekt hvor borgere, kroniske og multisyge patienter, pårørende- og sundhedsprofessionelle inddrages i forskningsprocessen	480.000
Jakob	Stokholm	Børne- og Ungeafdelingen	Næstved, Slagelse og Ringsted sygehuse	Long term effects of pregnancy supplementation - 10-year follow-up of the ABC mother-child cohort	420.000

Region Sjælland Den Sundhedsvidenskabelige Forskningsfond 2020 bevillinger

Jakob	Stokholm	Børne- og Ungeafdelingen	Næstved, Slagelse og Ringsted sygehuse	Remission of Childhood Asthma: An 18 years prospective follow-up of a birth cohort	299.000
Ole Birger Vesterager	Pedersen*	Department of Clinical Immunology	Næstved, Slagelse og Ringsted sygehuse	TIDLIGE BIOMARKØRER VED KRONISK INFLAMMATORISK TARMFYGDOM	579.220
Cæcilie	Buhmann	Psychiatric Research Unit	Psykiatrien	The treatment of PTSD in patients with psychosis with psychotherapy - a feasibility study	754.000
Torben	Moe	Psykiatrien Vest	Psykiatrien	Attachment style changes measured in connection with music therapy treatment of traumatized refugees diagnosed with PTSD - a qualitative enquiry with quantitative measures	290.980
Michael	Marcussen	Centre for Relationships and De-escalation, Mental Health. Region Zealand, Slagelse, Denmark.	Psykiatrien	Networked-Based Recovery with User Involvement for young people with mental illness: The design of a nonrandomized clinical trial	187.000
Sidse Marie	Arnfred*	Psykiatrien Vest	Psykiatrien	Living with type 2 diabetes and severe mental illness - experiences of illness management and needs for support	439.000
Bodil	Aggernæs	Department of Child and Adolescent Psychiatry	Psykiatrien	Neurokognitive Markører ved Autisme Projektet (neuroMAP)	189.000
Torben Lykke	Sørensen	Øjenafdelingen	Sjællands Universitetshospital	Opsporing og hjemmemonitorering af aldersrelateret makuladegeneration (AMD) ved hjælp af hjemmetest på mobiltelefoner og tablets	400.000
Hans Carl	Hasselbalch	Department of Hematology	Sjællands Universitetshospital	Neuroinflammation, Neurodegenerative Diseases and Cancer Mutations in Blood Cells - a Common Link ?	352.000
Morten	Dahl	Department of Clinical Biochemistry	Sjællands Universitetshospital	Risk of Cardiovascular Disease in Persons with Alpha-1-Antitrypsin ZZ Deficiency	344.000
Gregor Borut Ernst	Jemec	Department of Dermatology and Venereology	Sjællands Universitetshospital	Research into the individual causes of hidradenitis suppurativa	300.000
Lise Mette Rahbek	Gjerdrum	Department of Pathology	Sjællands Universitetshospital	Proteomics in laser microdissected melanoma cells and tumor infiltrating lymphocytes.	296.000

Region Sjælland Den Sundhedsvidenskabelige Forskningsfond 2020 bevillinger

Anne-Vibeke	Lænkholm	Department of Surgical Pathology	Sjællands Universitetshospital	Adjuvant treatment of patients with breast tumors & 8804; 10 mm, node-negative - do we offer the appropriate treatment?	292.000
Gregor Borut Ernst	Jemec	Department of dermatology and venereology	Sjællands Universitetshospital	Research into the genetics of hyperhidrosis and xerosis	288.000
Rikke	Borg	Medicinsk afd./Nefrologisk forskningsenhed	Sjællands Universitetshospital	The effect of low-dose salicylate treatment on platelet function in patients with renal failure treated with darbopoinetin alfa (The EPO/ASA study)	280.000
Stig	Brorson	Ortopædkirurgisk Afdeling	Sjællands Universitetshospital	Treatment of diabetic foot ulcers with inforatio technique: a randomized clinical trial of wound healing.	248.000
Peter	Bytzer	Medicinsk afdeling, Køge	Sjællands Universitetshospital	Fækal mikrobiota transplantation som skræddersyet behandling til patienter med Clostridium difficile infektion: Identificering af den rette behandling til de rette patienter	224.000
Jørn	Herrstedt	Department of Clinical Oncology and Palliative Care	Sjællands Universitetshospital	Chemotherapy-induced peripheral neuropathy - Novel assessment and prevention options using multi-frequency tactilometry and cannabinoids	216.000
Troels Wesenberg	Kjær	Department of Neurology	Sjællands Universitetshospital	A Life with Epilepsy - Multimodal monitoring of epilepsy outside of the hospital using wearable sensors	216.000
Niels Eske	Bruun	Department of Cardiology	Sjællands Universitetshospital	The influence of societal and psychological risk factors on cardiovascular outcomes in patients with diabetes - a nationwide mix-methods study	208.000
Ismail	Gögenur	Kirurgisk Afdeling	Sjællands Universitetshospital	Use of wearable devices to monitor heart rate variability, glucose profile, sleep patterns and recovery after colorectal cancer surgery for early detection of complications	200.000
Bjarki Ditlev	Djurhuus	Department of Ear, Nose, Throat and Maxillofacial Surgery	Sjællands Universitetshospital	Transmyringeal ventilation tube insertion for unilateral Ménière's disease: a prospective, placebo-controlled, double-blinded, randomized, clinical trial	200.000
Lisbeth Højkjær	Larsen	Department of Neurology	Sjællands Universitetshospital	Impact of specific electronic devices on sleep, stress and physical activity.	200.000

Region Sjælland Den Sundhedsvidenskabelige Forskningsfond 2020 bevillinger

Sarah Victoria Ekeløf	Busch	Kirurgisk afdeling	Sjællands Universitetshospital	Remote Ischemic Preconditioning in Patients Undergoing Minor Abdominal Surgery	200.000
Torben Lykke	Sørensen	Øjenafdelingen	Sjællands Universitetshospital	Vagus nerve aktivitet ved aldersrelateret makuladegeneration (AMD)	188.000
Niels Eske	Bruun	Department of Cardiology	Sjællands Universitetshospital	Cardiovascular disease and infective complications in Chronic Kidney Disease and Hemodialysis	180.000
Ole	Mathiesen	Centre for Anaesthesiological Research, Department of Anaesthesiology	Sjællands Universitetshospital	Persistent postoperative pain after major emergency abdominal surgery - OMEGA patients	160.000
Troels	Wesenberg Kjær	Department of Neurology	Sjællands Universitetshospital	Coping types within Parkinsons Disease - A screening tool.	144.000
Susanne Oksbjerg	Dalton	Department of Clinical Oncology and Palliative Care	Sjællands Universitetshospital	Ensomhed og social isolation hos kræftpatienter. Et forberedelsesstudie	144.000
Preben	Homøe	Department of Ear, Nose, Throat and Maxillofacial Surgery	Sjællands Universitetshospital	Diabetes og obstruktiv søvnapnø - en hjertefarlig cocktail? / Detection of atrial fibrillation in patients with diabetes and obstructive sleep apnea: cardiovascular disease and prevention of stroke	120.000
