Martin Vestergaard Gøtzsche - Publikationer

**Præsentationer ved internationale kongresser**

**Vestergaard M**, Kongerslev M, Thomsen MS, Harmer CJ, Simonsen E, Miskowiak KW. Negativity bias in women with borderline personality disorder is linked to poorer inhibition and increased false memories for words. The XVth International Congress, “Personality Disorders, Functioning and Health”, of the International Society for the Study of Personality Disorders (ISSPD), Heidelberg, Germany, September 25-28, 2017.
